WELCOME ABOARD!  Amphicar

Adventures and holidays by the dozen are within easy reach of an Amphicar family. Get in and out of the water with no problems, inconveniences, launching fees, mooring costs. Drive down to the shore . . . in . . . and cruise away — “INSTANT BOATING”.

Amphicar is a conventionally designed sports car, with full rear seat and trunk space. It's a seaworthy 14-foot inboard motor boat as well, with a length-to-width ratio that assures utmost stability and safety. The front wheels act as twin rudders for fast, responsive handling in the water.

The quick, alert Triumph Herald engine — rear mounted for superior traction on the road, greater efficiency in the water — delivers up to 32 miles per gallon on the road, cruises up to 1 hour in the water on 1½ gallons of gas.

Now you can own a car *and* a boat for the price of a car alone!

HAPPY MOTORING, TOO, IN YOUR

What's so unique about an AMPHICAR?

1. Rugged twin nylon propellers send your Amphicar skimming through the water at up to 10-12 m.p.h.
2. Twin stick floor shift is a fully synchronized, ALL four forward speed and reverse transmission for land travel, and a forward and reverse gear for water cruising.
3. A bilge pump, hand throttle for convenient "feet off" driving in water, marine compass, marine horn, navigation lights and other safety equipment are available.
4. Notice the numbers on the fender? That's your boat license!
5. Fully insulated top and roll-up windows keep you snug and dry in heavy spray or summer showers.
6. Watertight doors have double locks and double seals.
