

A Question about Brown's Iron Bitters Answered.

The question has probably been asked thousands of times "How can Brown's Iron Bitters cure everything?" Well, it doesn't. But it does cure any disease for which a reputable physician would prescribe **Iron**.

Physicians recognize Iron as the best restorative agent known to the profession, an inquiry made of any druggist, will, without doubt, substantiate the assertion that there are more preparations of iron than of any other substance used in medicine. This shows conclusively that Iron is acknowledged to be the most important factor in successful medical practice. It is, however, a remarkable fact, that prior to the discovery of Brown's Iron Bitters no perfectly satisfactory iron combination had ever been found.

Brown's Iron Bitters does not injure the teeth, cause headache, or produce constipation—*all other iron medicines do*. Brown's Iron Bitters cures indigestion, biliousness, weakness, dyspepsia, malaria, chills and fever, tired feeling, general debility, pain in the side back, or limbs, headache and neuralgia, kidney and liver troubles, constipation and impure blood—for all these ailments Iron is prescribed daily.

Brown's Iron Bitters, however, does not cure in a minute. Like all other thorough medicines, it acts slowly. When taken by men the first symptom of benefit is renewed energy. The muscles then become firmer, the digestion improves, the bowels are active. In women the effect is usually more rapid and marked. The eyes begin at once to brighten; the skin clears up; healthy color comes to the cheeks; nervousness disappears; functional derangements become regular, and if a nursing mother, abundant sustenance is supplied for the child. Remember, Brown's Iron Bitters is the *only* iron medicine that is not injurious.
