No matter what my mood, Expressions lets me convey my joy, confidence

THE SCENTS

Live, **Laugh** and **Love**—fragrances that capture three different dimensions of Reese Witherspoon’s multi-faceted femininity.

THE INSPIRATION

One day, she feels joyful and playful. The next, optimistic and modern. And sometimes, she exudes a sensual and sexy attitude. The Avon woman isn’t defined by one mood - her emotions change from day to day. . .and now her fragrance can too. Inspired by the many sides of Avon Global Ambassador Reese Witherspoon, the **Expressions** collection includes three scents that comprise a candid expression of you. Each of the three scents - **Live**, **Laugh** and **Love** - is a feminine, confident celebration of who you are. So whether you Laugh often, Live without regrets or Love to the fullest, you can express yourself through the new fragrance trio. A shining, aspirational example of the woman who does it all, Reese is the inspiration behind the trio of scents dedicated to honoring every side of the modern woman.

The **Expressions Collection** (\$x.xx) will be available xxxxxx exclusively through Avon Representatives. To locate an Avon Representative, call 1-800-FOR-AVON or visit www.avon.com.

THE TRIO

The fragrance trio is comprised of the following expression scents:

For the woman who lives every day to the fullest, this optimistic, modern scent is a celebration of joie de vivre. An ode to the art of living well, **Live** is a floral fruity blend of lush petals and juicy fruit notes. A burst of effervescent bergamot introduces lush muguet petals and silky gardenia, inspiring a true love of life.

Joyful and playful, **Laugh** is a bright, fun scent full of spontaneity. For the woman who laughs out loud, the citrus floral scent is full of sunshine and light. White tea and mandarin are blended with feminine floral notes like freesia and rose for a crisp, fresh appeal.

Sensual and sexy, **Love** is a fragrant celebration of moments shared with someone special. Inspired by the fresh glow that comes with falling in love, the oriental floral scent is a rich, textured, seductive love note. The fragrance combines shimmering top notes of succulent black cherry with a plush peony floralcy and sensual amber and woods.
