Re: Alterations & Additions  
Delaware Trust Building

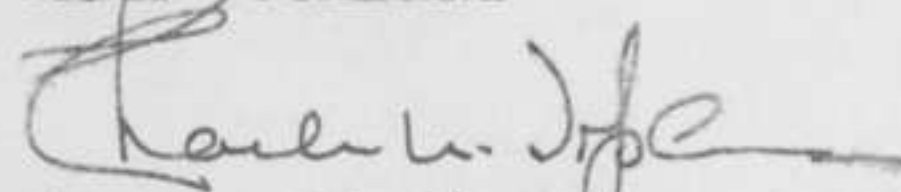

Gentlemen:

We have your authorization of the award of the mail chute and box to the Cutler Mail Chute Company and note that you have stated that the mail box is subject to your approval. We wish to state that the Cutler Mail Chute Company's proposal is based upon the mail box which you approved in this office, the photograph of which we are enclosing herewith.

Regarding the size of the box, we wish to state that same has to be put in subject to the approval of the Postmaster in Wilmington, which arrangements are all taken care of by the Cutler Mail Chute Company direct.

This is common practice and is the way these matters are handled at all times.

Very truly yours,  
WARK COMPANY

Charles W. Topliss.

CWT:K.
