My Dear Drayton

What is your game is

my life - I have a peremptory
order to tend the Penance
to New York - &

I have examined Fulton's

calumnies in what I think
a good letter to the Navy
Dept - they attending the
propriety of doing this, by having
sent the man here & being under
Furber's control -

The time of the Penance home

I would to whom I get a line from you

and the private letters are all
recovered except & more than
the book I surmised - The only
exception is to be traced to the
Naut. Arm. man & Steamer
who made the port ~~from~~ⁱⁿ which
the poisoned arrows were dipped
one are indebted to the Navy
Dept, for the presence of
these two standards.

Yours gratefully
