Dear Sirs

Your esteemed favors Original & duplicate (both arrived P. Mail Steamer) dated 6th Sept: last with Bill of Lading of Powder p. Commerce from Philadelphia which on arrival will meet with every attention. -

You do not state quantity contained in each Barrel of Coarse & fine loose # & # but presume 100 lbs each. -

I note that you have sent some Powder in Flasks, which I fear will not do as Government have made parties pay about 5^{cts} extra duty p. lb on those from London and which our Customers refuse to make up in price. - However on arrival I shall be better able to give positive information & I trust at same time satisfactory accounts.

Should any vessel be sailing from your Port a further Assortment of Cannonsto may be sent. -

I remain
