

"Genares"

Melbourne 25th Novem. 1864

(Address Box N. 125 Post-Office)

Messrs E. J. du Pont de Nemours & Co

Wilmington

Dear Sir,

Our last respects were dated 25th Sept. and went forward per *Salento*, duplicates per *Northam*, and we have now to own receipt of your returned favours of the 7th August and 7th Sept. contents of which are duly noted.

We cannot think, with all deference to your opinion, that the damaged Powder arose from sweat or steam from salt water as the Packages outside would have shown some evidence of this. However we trust that such may not occur again & we would assure your goodwills that every attention on our part will be rendered, with the idea of making your loss on these ventures as small as possible.

Certainly the demand for Powder has been very trifling we have been unable to sell either English or American but we trust that before long, we shall have some sales to advise.

We send you our latest Sp. to which please refer for details information respecting our market and hoping soon again to have this pleasure,

We remain

Yours faithfully
Geo. Howe McDonald & Co
