Messrs E. J. DuPont & Co
Wilmington Del.

Gents

Yours of the 30th ult. came duly to hand, I think it would be advisable to advance on Rock Powder to 2.31 & 2.33 delivered, as we have but a small quantity on hand. The Mining Powder I think it would be best not to advance beyond 2.20 & 2.25 delivered, the rate I am now selling at. but to continue selling at those rates until the new stock comes in, in April next. I think by this course I will be able to keep all my best customers until that time and then continue to sell the 24 lbs. kegs at the same rates which will they find us about 9 cts per keg more than we are now getting; the extra will more than cover cost of delivery. Respecting the team I think two good stout horses would answer our purpose here very well and would cost say

2 Horses 275.

Names 30.

Waggon 225

\$430-
