

120 P. - from Jones - Charles G.

CONCOURSE SHOPPING CENTER in Penn Center will begin to look like this sketch as additional stores now under construction are completed in the multi-million dollar project which extends under five square blocks in the center of Philadelphia. In the background is the sunken garden court being constructed at the corner of 16th Street and Pennsylvania Boulevard. Six air conditioned shops like those at right are now being constructed by Union News Company for sub-lease to retail stores and specialty shops.
