THOS. MOSER

Celebrating 40 years of handcrafted American furniture.

WE'D LIKE TO  
INTRODUCE  
OURSELVES...

## WELCOME TO THOS. MOSER

*At Thos. Moser Cabinetmakers, we build furniture of truly lasting value. Since 1972, we have created furniture of exceptional design and enduring quality—handcrafting one piece at a time. Here, in our Maine workshop, each piece is meticulously made from sustainable American hardwood and guaranteed to last a lifetime.*

*Our designers and craftsman want the furniture we make to exceed the needs and expectations of our customers—our goal is to craft a piece that will engender the same pride of ownership that we feel in making it. With each piece, we are creating an heirloom of tomorrow.*

*Throughout these pages, we'll share with you what our customers from the past 40 years have told us are their favorite designs. To experience the full array of our handcrafted furniture, return the card attached to the back cover and we'll send you our 2012 Annual Catalog. Or visit [thosmoser.com/welcome](http://thosmoser.com/welcome) to learn more and find the showroom location nearest you.*

### CELEBRATING 40 YEARS HANDCRAFTED AMERICAN FURNITURE

For the first three years, our offering consisted of reproductions of American furniture that I admired. But I soon realized that while honoring good design was a reasonable way to make a living, it wasn't true to my own vision. Then and there, I determined that we needed to create our own distinctive style. I had a strong sense that the best design is simple, unadorned and in harmony with the material, and I very much wanted to build on traditional furniture forms with those values in mind.

Forty years later, it is evident that adhering to this design aesthetic was the right path. Our dedication to spare design that celebrates form and function has been passed down through generations of customers and Mosers.

### A MEASURE OF PRIDE EACH PIECE ARRIVES HAND-SIGNED

Every piece of Thos. Moser Furniture shares one attribute: exceptional craftsmanship. As one of our cabinetmakers says, "There have been times when I have been out there inspecting a piece with a magnifying glass and a light to make sure every dovetail is perfect."

It is the combination of artistry and commitment to every detail that creates furniture capable of lasting for generations. That's why every Thos. Moser piece is proudly signed by the cabinetmaker who handcrafted it.

## THOS. MOSER OCCASIONAL TABLES

Many of our collections include one or more smaller tables, designed to work beautifully on suite or to stand alone whenever needed. Many of our loyal customers introduce friends and family to the Moser aesthetic through a gift of one of these tables.

In every way, our occasional tables embody the philosophy and dedication of our company, just on a smaller scale. We know these tables get plenty of use, and we craft them to become better with age. The diverse range of styles makes it easy to mix designs. Custom seats, features (such as drawers and pulls), and other wood species are available.

#### WING CHAIR

Our Wing Seating Collection is poetry as furniture, marrying aesthetics with comfort. Inheriting its sophisticated, curvaceous silhouette from an 18th-century Queen Anne chair, the Wing Collection brings fresh vision to an old form. Four-inch-thick cushions envelop the sitter, while carved solid cherry armrests gently lay at just the right height. Matching footrest available.

CHAIR 39 1/2" x 28 1/2" x 35"D \$3,700

FOOTREST 17 1/2" x 21 1/2" x 15"D \$1,000

## EDO ROCKER

The distinctive rocker is both modern and ageless, creating a harmonious flow between nature and craft. And it's rocking motion is as gentle and relaxing as watching snowflakes settle to the ground.

25 1/2" x 24" W x 37" D \$8,825

## FORM FOLLOWS FUNCTION

NOTHING CAN BE ADDED.  
NOTHING CAN BE TAKEN AWAY.

Good design never grows old or useless (just think of the paper clip). Well-made objects crafted with clarity of purpose are never out of date, as we strive to create forms that solve human needs, with aesthetics predicated on function. The ornamentation in our work derives from the exposed architecture of the furniture and the traditional refines of the wood itself.

Some of our most popular designs are now well over twenty years old - a generation of spans that gives testimony to the timeless nature of our designs. It is our sincere hope that our designs, both old and new, will become a part of your legacy too.

The Vita Bed's simplicity and curved headboard harken back to the Modernists and the sleeping platforms common in Japan. The curved, laminated feet suspend the mattress snugly in a solid base.

**MOSER STYLE. YOUR WAY  
CUSTOM BUILT FOR  
THE INDIVIDUAL**

In the beginning, we only made custom pieces of select furniture. Today many of these custom pieces are now our most popular designs. We also continue to offer custom pieces upon request. We can modify the length, width and height of our pieces—or customize drawers and staining to meet your precise requirements. Case pieces can be customized to create media storage that will accommodate the rest of your room. Beds can be made for platform mattresses or lower headboards. If you require a unique design, we'll work with you to draw the piece and improve it for strength.

If you prefer another species of wood, we can substitute almost any native hardwood of your choice. With everything we do, we intend to provide you with an heirloom.

**PENCIL POST BED**

A venerable design pared to its simple essence. The posts are astoundingly tapered and rise to an impressive taper. Matching wood grain preserves nature's hardwood in the solid cherry headboard. Most second finish joints are precisely fitted for permanent strength. Comes with removable linens and a slatted canopy frame.
