Specification Guide  
Effective Date  
September 1, 2007

# Welcome to MOSERFORM

We invite you to experience our "*Sabina*" Collection.

This guide has been designed to help you understand and specify these pieces. If you do not see something you would like, please call. Special finishes and some product modification are available by quotation. If you need something executed quickly or "white gloved" directly to your client, please let us help.

Enjoy!

## COM ADDRESS

MOSERFORM  
647 Hopewell Road  
Morganton, NC 28655

## TERMS AND CONDITIONS

### AVAILABILITY

MOSERFORM products are available through select showrooms and are sold exclusively to the trade. If there is not currently a showroom available in your area, please contact us directly.

### ORDER PLACEMENT

All orders must be initiated by a purchase order. A deposit of 50% is required to activate the order. MOSERFORM will acknowledge your order in writing, for your review. Any changes to the order must be received promptly in writing. The production process will begin approximately one week from receipt of deposit.

### CHANGES AND CANCELLATIONS

Once your order is in production, any changes will result in relative charges for work performed. MOSERFORM will not accept cancellations once the order is in production. Forfeiture of some or all of your deposit will result.

### DIMENSIONS

All dimensions are listed to the nearest 1/4".

### PRICES

All published prices are list prices unless otherwise indicated. All prices are FOB Morganton, NC. Prices do not include shipping charges, cartoning or crating charges, taxes, local delivery or installation charges.

### LEAD TIME

Lead time for completion of standard product is 8-10 weeks from receipt of a complete order and deposit. Ship dates will be assigned once a firm order and deposit have been received.

### SHIPPING

Furniture will be shipped by certified furniture carriers that best service your destination and are approved by MOSERFORM. All freight and associated charges must be paid prior to shipment. You will be invoiced for the remaining 50% of your order and for freight 2 weeks prior to your acknowledged ship date. Prompt, complete payment will insure that your order ships on time. In the event of freight damage, claims must be filed directly with the carrier.

### SPECIAL HANDLING AND PACKAGING

Cartoning, crating, and inside, "White Glove Delivery" are available upon request.

### WARRANTY

All pieces are warranted against defects in material and workmanship for one year from delivery date. So long as the piece has not been exposed to other than normal use and service, a prompt evaluation will be made. The remedy (whether to repair or replace any product under warranty) will be at the discretion of MOSERFORM.

## GENERAL INFORMATION—CASES AND TABLES

### MEDIA

All of the pieces in the Sabina line are formed in premium American black walnut solids and select figured American black walnut veneer. All solid members are articulately kiln-dried to assure stability. Veneer tops are all straight grain faces and are configured of large quarters (straight parallel grain) and small hearts (cathedrals), which provide a beautiful geometry across the surface.

When you see brass, know that it is premium quality solid brass, forged not casted, and etched to patina not glazed, and then lacquered to preserve the process.

A stone-top option is available on Sabina's Glove Table. The stone is Italian limestone selected for its color and character. As with any natural material, no two are identical but each piece is outstanding. Samples are available.

### CONSTRUCTION

The lean architecture and sinuous form of Sabina requires superior joinery. Well-accepted techniques employing the spline, dovetail, double-dowel and mortise and tenon are augmented by more sophisticated joining methods utilizing compound mitres and diamond mitres. These joints are finished with a series of robust forming and blending operations.

All veneered surfaces have a minimum five-ply construction. A number of our designs incorporate decorative veneer patterns including: reverse box pattern, short grain, radiant pattern and diamond patterns.

All cases are fitted with leveling glides at all contact points.

### FINISH

Whether you are selecting the deep, umber-based "Espresso" finish, or the sienna-based mid range "Cinnamon", the process remains the same. First, paste fillers are worked into the grain and allowed to dry. The piece is then thoroughly sanded to remove the excess. With the deepest pores now filled, a series of dyes, controllers, stains and glazes are applied to maximize grain development and achieve ideal color. After sealing the color development in, several coats of low sheen lacquer are applied, dried, and thoroughly sanded, providing the ideal build for hand rubbing and polishing. The result is a truly premium finish—optimum clarity, soft warm patina, and an inviting touch.

### MODIFICATION

Special finishes are available upon request. A "TMS" (to match sample) process is required in all cases. Dimensional modification of any of our pieces will be considered upon request. Drawings are required. Lead time and cost estimates will be quoted promptly after receipt of drawing.

## GENERAL INFORMATION—UPHOLSTERY

### CONSTRUCTION

#### FRAMES

All frames are crafted of premium kiln dried lumber.

All exposed wood components of our frames are crafted in American black walnut.

All internal wood components are of 1-1/4" structurally stable select hardwoods.

Joinery is either double dowel or mortise and tenon and is glued and corner blocked.

### SUSPENSION

#### SEAT

8-way hand tied coil and 6" fused pocket barrel coil suspensions are the best available and are used interchangeably depending on particular frame requirements.

#### BACK

Insulated and tied sinuous wire suspension.

#### SEAT CUSHIONS

"Springdown" premium construction is standard on all of our seat cushions. Each cushion consists of a core of fabric covered springs, wrapped in 1.8 density urethane foam, banded across the front edge with polyester fibers. This core is then placed within a down proof sewn envelope filled with grey duck down, feathers and premium polyester fibers.

#### BACK PILLOWS

"Featherdown" premium construction is our standard. Each pillow consists of a channeled downproof ticking filled with a blend of 10% grey duck down and 90% grey duck feathers. This proportion provides an extreme level of comfort while helping to hold form.

#### MATCHING

On all components of each piece your fabric will be both flow matched (from the top rail to the floor) and center matched (dominant feature to be centered on individual components).

#### WELTS

All welts are single cord and bias cut as standard.

#### GLIDES

Every foot of every piece is finished with a nylon glide. We feel this is the best point-of-contact device for the widest range of flooring.

#### DECKING

Our standard decks are a picture framed, color coordinated sateen with an embroidered logo.

## STANDARD OPTIONS

### CONTRAST FABRICS

The use of two contrasting fabrics such as an inside/outside application or a body/cushion application can be done for an additional charge. The associated charges are: ottoman \$25, chair \$40, loveseat \$50 and sofa \$60. Contact customer service for fabric requirements.

### CONTRAST WELTING

Contrast welting sewn of fabric is available on any style. Fabric requirements: chair or ottoman would each require 1-1/2 yards, loveseat will require 2 yards and a sofa requires 2-1/2 yards of the contrasting fabric. The corresponding deduction from your core fabric requirement is as follows: none for an ottoman, 1 yard for a chair, 1-1/2 yards for a loveseat and 2 yards for a sofa. Pricing is as follows:

	Sofa	L/S	Chair	Otto
Back Pillows	\$17	\$12	\$8	N/A
Seat Cushions	\$20	\$15	\$10	\$10
Body	\$20	\$15	\$10	\$10

### SELF DECKING

Self decking can be used upon request and does not require an up-charge. This requirement must be clearly noted on your original order. Additional fabric required is 1 yard for a chair, 1-1/2 yards for a loveseat and 2 yards for a sofa.

## C.O.M. INFORMATION

### C.O.M. SHIPMENT

All C.O.M. must ship to:

**MOSERFORM**  
647 Hopewell Road  
Morganton, NC 28655

All C.O.M. shipments must include the following information on the package:

1. Your Company name
2. Your Company address
3. Your PO number for the furniture that this fabric is to be applied to
4. Your customers name or sidemark
5. Fabric information, source, ID, colors, type of fabric, etc.
6. Amount of fabric being sent
7. Face side of fabric to be used
8. Any special instructions, ie. railroad or up the roll, specific centering instructions etc.

Note: Be sure to send a cutting with your order

Please be certain that you are sending us the required amount of fabric.

### REPEAT CHART

fabric width	up to 4" repeat	4" to 15" repeat	15" to 21" repeat	21" to 27" repeat	27" to 36" repeat	center up roll
54"	0%	15%	25%	35%	45%	75%
50"	15%	30%	40%	50%	60%	100%
48"	20%	40%	50%	60%	70%	125%
45"	50%	55%	65%	75%	85%	135%
36"	60%	75%	85%	95%	100%	175%

Note: Excess C.O.M. will be returned with your order, *if requested*. If requested after your order has shipped you will be responsible for shipping. \$25 minimum COD.

### COL (Customers Own Leather)

Customer's own leather can be used on any style for an upcharge of 15% unless otherwise specified. To calculate the footage required, use 17 square feet of leather for each yard of 54 plain fabric required. For calf skins or other small hides, use 20 square feet per yard. We will cut your leather to be as free of strong markings as possible. Leathers are, however, natural and as such contain a unique character and natural provenance that we will work hard to preserve.
