RESTING ELEGANCE...INTRODUCING THE ELLIPSE BEDROOM COLLECTION

On the cover: Brenda S. Thos, Moser cabinetmaker for 24 years.

Our Ellipse collection, like all collections we've developed over the years, was designed to achieve lasting permanence in both its construction and its aesthetic relevance.

The inspiration for Ellipse is found in the simple, functional elegance of mid-century modern design. This movement evolved during the years following World War II, when Europeans were eager to rebuild their homes and resume their lives.

As then, today's consumers have become more discerning. With this new collection, we've created furniture that economically demonstrates superior durability and restraint in the use of raw materials.

Ellipse represents a simpler interpretation of the Moser tradition. The bed's head and footboard are carefully crafted for maximum strength. The dressers and side tables demonstrate the elegance of fine joinery. The gentle ellipse form is evident throughout the collection in subtly tapered table legs and integrated curved drawer pulls.

The Ellipse Bedroom collection is a study in elegant simplicity, and our standards remain unchanged. When you choose Moser, you've earned our commitment. And we'll stand by it for a lifetime.

On the cover: Brenda S. Thos, Moser cabinetmaker for the past 24 years.

ELLIPE VERTICAL DRESSER

With six grain-matched dovetailed drawers, the precision of this dresser exhibits the skill of our craftsmen to achieve fastidious tolerances—using nothing more than an experienced eye and steady hands. With gently tapered legs that extend through the structure, this dresser combines function with grace.

ELLIPSE BEDROOM

From its undorned, graceful headboard to the structural simplicity of its footboard, the beauty of the Ellipse Bed lies not in what it is—but what it isn't. It isn't unnecessarily ornate. It isn't ostentatious. It is a study in the relevance of wood, of fine craftsmanship, and of joinery techniques that have served craftsmen for centuries. See page 21 for bed sizing information.

"WE STARTED COLLECTING OUR PIECES WHEN WE MARRIED. RATHER THAN BUYING EACH OTHER "STUFF" FOR BIRTHDAYS OR CHRISTMAS, WE DECIDED THAT IT WOULD BE MUCH MORE FUN AND MEANINGFUL TO BUY A NEW MOSER PIECE THAT WE COULD SHARE TOGETHER. SO, WE HAVE A NICE LITTLE COLLECTION GOING THAT WE PLAN ON KEEPING IN THE FAMILY."

ELLIPSE LIVING COLLECTION

The hallmarks of simplicity, superior durability and careful restraint in the use of raw materials are evident in the details of our Ellipse line. Arms float on carefully joined through-tenons. End grains are exposed and polished. Profiles are clean and space-efficient. Throughout the line, the gentle, organic curve of the ellipse is evident in the tabletops, seat backs, and gently sweeping chair arms. Built in cherry or walnut, the design and construction of the Ellipse Living collection will serve for generations.

HARPSWELL DINING CHAIRS

The back crest of the Harpswell Chair is carved from a single piece of cherry to reveal the growth rings that add nature's fingerprint to the piece. Well-padded seats and optional backrests can be upholstered in mahogany, leather, and a wide variety of fabric options.

Customer FAVORITE EDO DINING

A distinct nod to the East, the Edo Dining collection hints of primitive form. Open lines and simple shapes belie the deliberateness of the furniture's design. The collection is both modern and ageless, effectively creating a harmonious flow between nature and craft.

The Pasadena Dining Table encompasses the best of high-craft and new-tech skills: simple to look at, yet extremely complex to make. CATENA CHAIRS & HARVEST TABLE

Delicate in appearance, the Catena Chair is sturdy enough for everyday use. Its hand-shaped crest is wedged at the corners and held in place with flexed ash spindles. Knee braces eliminate the clutter of stretchers between the legs.

The flexible drop leaf Harvest Table provides a welcoming dining surface for family and guests. Handsome rabbet joints provide a smooth, trim finish. With the leaves down it can easily tuck against a wall to maximize space and act as a serving or display table.

EASTWARD CHAIRS & BOAT TOP TABLE

The Boat Top Table is constructed using four aprons to support the legs and top. The two aprons that give the table the "boat" look are created using bent laminations, with the outermost layer matching the surrounding wood in both color and grain. The Eastward Side Chair is one of the most comfortable dining chairs you will find. The back crest and flexible ash spindles arch backward at the perfect angle for the human spine while curved cherry knees firmly support the legs without hindering the sitter.

When each piece is ready to leave our shop, it is carefully blanket wrapped and expertly packed

onto a delivery truck. When your furniture arrives at your home it will be unwrapped by the driver and positioned in any room you choose. They'll assemble your bed.

upholstery, wood species & finishes

We offer a wide selection of the finest quality fabrics and leathers. We'll assist you with fabric and leather recommendations, and we offer a convenient sample review service. You can also choose to supply a fabric or leather of your own. Please call for pricing.

We prefer to use an oil and wax finish, which allows air and sunlight to naturally color the wood. Our linseed oil and wax finishes are easy to maintain and become more beautiful as the wood's natural patina emerges.

Our furniture is principally built from premium-grade American black cherry. While we avoid exotic wood species due to environmental concerns, we regularly work with responsibly harvested ash, maple and walnut.

custom orders

We can modify many of our designs to suit your unique needs. Email or call us with your ideas and we will create drawings for your approval. We require a \$200 design deposit which will be credited to your order.

CELEBRATING 40 YEARS OF HANDCRAFTED AMERICAN FURNITURE

FORTY YEARS HAVE PASSED AND OUR
COMMITMENT TO THE CRAFT REMAINS.

Tom circa 1977 in our original workshop at the old Grange Hall in New Gloucester, ME.

"It is significant to me that we are celebrating this milestone anniversary," says founder Tom Moser. "We started the business as a labor of love and as we grew knew that we were making a difference. We have come a long way since those lean early years, and for that we are grateful to our loyal customers and to the all the men and women who have been part of our shop family."

Throughout the evolution of the company and its wide variety of product introductions, the Moser aesthetic has remained a constant. "It is through simplicity of form and attention to detail and proportion that we achieve a well-designed piece, and a piece from which nothing can be taken and to which nothing can be added. Forty years have passed and our commitment to the craft and to our customers remains the same."

OUR CHILDREN ARE NOW BUILDING THEIR OWN COLLECTIONS OF MOSER FURNITURE AND OCCASIONALLY PERSUADE US TO GIVE THEM ONE OF OUR PIECES. WE ALL LIKE THE EASE WITH WHICH THE FURNITURE HAS FIT INTO OUR HOMES AND BLENDED WITH OUR DECORS. WE CHERISH OUR MOSER PIECES BECAUSE THEY ARE TIMELESS AND SO EASY TO CARE FOR."

CUSTOMER FAVORITE WING LIVING COLLECTION

As designer David Moser is fond of saying, "every furniture design informs those that follow." The Wing Collection is a prime example that highlights this across centuries. Its lineage can be traced back to the 18th century's iconic Queen Anne chair, whose sophisticated silhouette made it the most prized seat in an English sitting room.

Our Wing Chair brings fresh relevance to an old form. Cradling the spine, thick cushions envelop the sitter, while carved and polished solid cherry armrests gently support at just the right height. Each piece is designed to be viewed from all angles, whether arranged to stand in the middle of a room or flush against the wall. Alone or grouped, the Wing pieces make a graceful contribution to both modern and traditional settings, and can be upholstered in leather as well as fabric. See page 21 for fabric information.

JIM B. THORS, Moser cabinetmakers 8 years.

CUSTOMER
JIM B. THORS

In the beginning, we only made custom one-of-a-kind furniture. Today many of those custom pieces are now standard designs in our catalog. We still continue to offer custom pieces upon request. We can modify the length, width, and height of our pieces—or customize drawers and shelving to meet your precise requirements. Case pieces can be customized to create media storage that won't overwhelm the rest of your room. Beds can be

made for platform mattresses or lower footboards. If you require a unique design, we'll work with you to draw the piece and engineer it for strength and longevity.

If you prefer another species of wood, we can substitute almost any native hardwood of your choice. With everything we do, custom or standard, we intend to provide you with a treasured heirloom.

CREATE YOUR OWN HEIRLOOM

WHAT BEGAN AS A SPECIAL REQUEST FROM A CUSTOMER TO COME TO OUR SHOP AND PARTICIPATE IN THE CREATION OF A DESK HAS BECOME A FULL-FLEDGED PROGRAM THAT HAS ATTRACTED PARTICIPANTS FROM AROUND THE COUNTRY. OUR CUSTOMER IN RESIDENCE PROGRAM GIVES OUR CUSTOMERS THE OPPORTUNITY TO COME AND SPEND A WEEK BUILDING THEIR OWN HEIRLOOM PIECE UNDER THE GUIDANCE OF A MENTORING CABINETMAKER.

The Customer in Residence program is a week-long intensive internship for our customers who want to experience the process and satisfaction of building Moser furniture for themselves. Each participant works side-by-side with a master cabinetmaker in our shop, who will assist in the selection of raw materials and the crafting of a hallmark Moser piece.

Learn about the intricacies of joinery, the shaping and molding of solid cherry and even how to bring out the natural luster of wood with the right amount of wax and elbow grease. Share your workshop experiences on a daily basis and enjoy two special group dinners with fellow attendees. In short, our program is designed to provide a once-in-a-lifetime opportunity for woodworkers of all abilities to polish their craft.

Participants stay at the historic Harraseeket Inn in Freeport with ample free time to explore Freeport and surrounding areas. Each Customer in Residence session ends with a special ceremony during which participants and their Thos. Moser partner sign the piece they have built.

Stay tuned as we gear up to launch our new Customer in Residence Weekend Workshops this fall in celebration of our 40th anniversary.

For details, please contact us at cir@thosmoser.com or call 800.708.9041 and ask for Steve Wyman.

AMERICAN BUNGALOW BED

In Asian traditions meaning is revealed in the tension created by opposites. We have realized our vision of this idea in the American Bungalow Bed by juxtaposing gently curved half-moon caps against a boating headboard. The effect brings to mind KANJI calligraphy and the Torii gates found at Japanese shrines.

OUR COMMITMENT TO SUSTAINABILITY

Thus, Moser furniture is principally built from premium-grade American black cherry. Sustainably harvested by family-owned mills in the Allegheny forest of Pennsylvania, our cherry is distinguished by its rich grain figures and a lustrous surface patina that deepens in color over time.

While we avoid exotic wood species due to environmental concerns, we also work with responsibly harvested ash, maple and walnut. When polished and oiled,

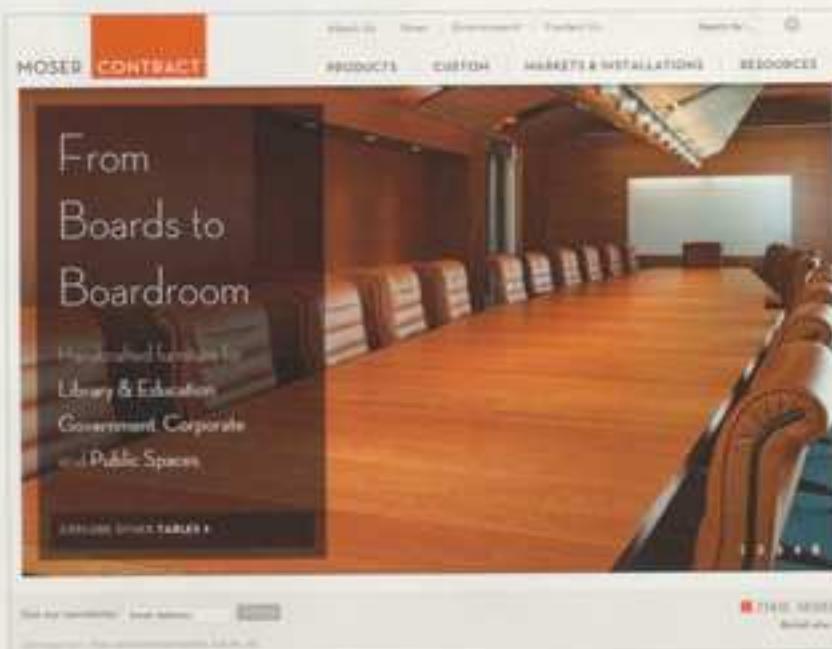

walnut assumes a deep chocolate brown color, then lightens over the years to a honey brown. Maple, on the other hand, begins the color of pale ivory and over time darkens to an amber hue. Building furniture with these native hardwoods from sustainably managed resources is a fitting embodiment of the Shaker belief in living a principled life, encompassing sustainability, land stewardship, innovation and quality in work.
