Good Luck For You

Good Luck for you, my friends! My sincere wishes for your future health, wealth, and happiness! I surely appreciate the orders that were sent in, in response to my last catalog, and I assure you that I filled them to my very best ability. I know my customers are satisfied at all times because it is my intention that they remain so. I do my utmost to fill your requirements in the very best manner, and have always gladly lived up to my guarantee of perfect satisfaction or your money back. I know you will be interested in reading the following data, the interesting stories of charms, tokens, and amulets.

You will indeed find unusual interest in the story of antiques, charms, tokens, emblems and other amulets. The interesting history of these items, which goes far back into the early ages, will bewitch you. You will marvel at the tales that have been told, at the mystery surrounding these wonderful goods. With ancient lore and the stories of our forefathers, we have brought down to us much interesting information. These have been carried along with the ancient superstitious beliefs which were principally interwoven with the events that transpired then. From the earliest days, yes, even up to today, the various peoples of this world, have believed that certain charms, amulets, and other items of this nature appear to have their own significance and their own mysterious power, whether mental or material we do not know, for its owners. Sprinkled through ancient literature we find references to amulets and charms. The most ancient talisman was the Swastika, which has been discovered among temples and ruins in all parts of the world. Four-leaf clover, the Swallow charm, Roots and Bones of different nature, find their place in the stories of the past. Pavitt in his book on this subject writes as follows:

"From remotest times, even back to the birth of humanity, precious stones and talismans have been held in high estimation by all nations; the former primarily for their beauty, and the latter on account of their virtues as transmitters of good luck and to avert misfortune."

"As tokens or symbols they conveyed joy and confidence to their owners and were thought to give warning of coming events and inspiring courage and
faith in the fearful; and the tragedies on which they have played a part together with their marked influence on the lives of individuals and nations, intensifies our interest in them so that it is little wonder that faith in their mysterious properties should have survived the growth of ages and still find so many believers in all countries."

In referring to emeralds, on page 11, Pavitt in his book of Talismans, says: "The Romans believed that nothing evil could remain in the presence of this gem which discovered falsehood and treachery by changing colour and turning pale, and when powerless to avert misfortune would fall from its setting, giving rise to the belief that the falling of this gem is a bad omen."

He makes many references to the various jewels and stones with their alleged powers. On page 233 he refers to Lodestones. In discussing this subject, he mentions as follows: "Claudius, a Roman poet, mentions a statue of Venus made of Lodestone and one of Mars in iron placed in the same temple that they might be attracted together at the marriage ceremonies, the Roman believing that this stone kept husband and wife faithful and their love secure." "Orpheus attributed to Lodestone the power of attracting the love of others, and it was frequently set in wedding rings for this purpose. In India it is believed to give vitality and health to those who wear it and it is very popular amongst Mohammedans."

This gathering of various items is for the intention of interesting you and giving pleasure, and we feel that we have a very thorough selection of these items and reproduction of same for you to select from.

You will, no doubt recall in the story of the Arabian Nights that Aladain owned a wishing ring that is said to have helped him. He was a poor boy, but the ring did wonders and gave him great power. Even Julius Caesar, that great Roman warrior, carried with him talismans and charms and believed that his success in battle was due to them. Napoleon was reputed to have a luck emblem in which he placed great faith; and many men, even today, carry something in their pockets as charms.

It is interesting to note in reading of this subject how the various beliefs varied, how the various religions adopted different forms of talisman, how the various leaders of these religions professed sincere belief in the power of the various talismen and charms that they recommended to their followers. The story of charms, talismen, etc., cannot be covered completely in this treatise. It is a tremendous subject and covers all the countries of the world. The various tales surrounding these wonderful items would astound you, and you would find them quite interesting reading.

The question as to whether certain charms, amulets, talismen, and tokens can accomplish the deeds attributed to them, cannot be determined since there is no actual authority on these subjects. Each charm is of peculiar value to its owner, based entirely upon the power of his belief in it. Many who purchase these, profess profound belief in that mysterious power, either mental or mate-
rial, which helped them derive benefits by aid of these talismen. It is true, however, that the customs and beliefs of the various religions with their attendant talisman have helped considerably those individuals who believed in them, and have indeed made them happier.

We know you will be interested in purchasing from this wonderful collection of charms, amulets, talismen, rings, and other items specially prepared as being emblematical or reproductions of those interesting tokens of the past with the accompanying tales describing them, as reminders of the past indicating the value attached to them in the ancient lore of the various peoples. These goods are sold by us as wonderful curios and we know you will delight in owning them. While we do not make any unusual representations for any of the goods in this catalog, we are proud of the fact that we have a full selection of the most interesting talismen, reproductions, charms, and amulets in the country.

THE SIXTH AND SEVENTH BOOKS OF MOSES

Contains exact copies of over One Hundred and Twenty-five Seals, signs, Emblems, etc., used by Moses, Aaron, Israelites, Egyptians, etc., in their astounding magical and other arts. Moses, the great law-giver of Israel, wrote the first five books of Holy Writ, known as the Five Books of Moses. It is believed, and known to comparatively few, that there were two more books written by him known as the Sixth and Seventh Books of Moses. Writing, manuscript, etc., of precious worth have existed for ages past that could be traced to the time of Moses, but few of these have been published, except in small portions. This is accounted for by the fact that the high priests, scribes, and heads of various religious bodies were unwilling that the people should be given those deeper mysteries, being fearful of losing their hold on them. Moses acquiesced, during his residence at the Court of Pharaoh, many Egyptian arts in his constant intercourse with learned men. It is pronounced the most wonderful work ever published. So true is this that millions never undertake at any important step in life relating to finance, exchange or health without seeking from its pages advice and guidance. Contains many mysterious rules, instructions, guides, mystic symbols, seals, wierd tales, etc. A wonderful book.
